

Before the  
FEDERAL COMMUNICATIONS COMMISSION  
Washington, DC, 20554

In the Matter of                    )  
Creation of a Low                )  
Power Radio                    )  
Service                         )

MB Docket No. 99-25

My name is Calvin Robinson, and I strongly support any actions the Federal Communications Commission can take to expand and support the Low Power FM radio service.

Please considering granting rural communities the originally proposed 1000 watts instead of the 100 watts allocated. NAB & NPR do not offer a fair representation of the rural communities these types of stations serve.

My local station, WXCS-LP 92.9, barely reaches my area and is often over-ridden by a stations in Buffalo (100 miles away).

Please try to find time to do this...they extended the deadline from August 8th...please use my comments as a guideline because it is important that our local station be allowed the power to meet the needs of our local communities.

Thank you for your time & consideration.

Calvin Robinson
